Mechanism of Curricular Planning and Implementation

A. Academic Calendar and Time Table:

- The institution follows a well- designed and well- prepared academic calendar for effective implementation of the curriculum. Time table of curricular activities such as theory lectures, practical, co- curricular activities and examination schedule is so designed in such manner that the students take part in the maximum number of activities and their personality is developed.
- The academic calendar is distributed to various departments of college and effective implementation is carried out by work distribution within staff of the college.
- Effective implementation of the curriculum is also achieved by the proper allotment of workload so that no one is overburdened and each teacher will give his/ her best performance.

B. Syllabus:

- The syllabus is prepared by the board of studies for the respective courses. The courses are taught as per the time weightage mentioned in the syllabus. The college is affiliated to the Savitribai Phule University, Pune.
- The teachers are always updated with new and recent developments in the subject and the requirements by industry. Teacher's knowledge is upgraded through orientation/ induction programs and refresher courses in the subjects. The teachers also attend and take active participation in the National, International as well as State, University level seminars, workshop, conferences of their subjects.
- The view and suggestions from the teachers actually teaching the particular subject are taken into consideration in the preparation of the syllabus by the members of board of studies through syllabus framing workshops organized by the University.
- The HEI is situated in the rural and tribal area, most of the students are lacking in their basic/ fundamental knowledge in the subject. Efforts are taken to bring them up to the normal level before imparting actual syllabus prescribed by the University.

C. Teaching Methods:

- Chalk and blackboard method are used in the classroom teaching most of the times. However, the teachers are allowed to use modern technological resources such as LCD projectors to support their classroom lectures as well as laboratory demonstrations. During COVID-19 pandemic teachers have developed e-resources such as video lectures, PowerPoint presentations and delivered lectures through ZOOM, You tube, Google meet etc. platforms.
- In addition to regular lectures, the departments in the college also organize special lectures by inviting expert teachers from the other colleges and industries. The special lectures are arranged for the slow learner students. Different add on/ certificate courses are also conducted by various departments.

Criterion I – Curricular Aspects

D. Library:

- The library of HEI is always kept updated by acquiring reference books, journals, e-resources needed for the effective teaching as per the demand of the teachers. Internet with wi-fi facility is also available in the library and college campus for easy access of resources.

E. Co-curricular activities:

- The co- curricular activities such as industrial visits, educational tours, group discussions, seminars, commerce festival etc. organized by various departments are part of active participation of the students.

F. Continuous internal assessment:

- The progress of the students is monitored by following continuous internal assessment process. The internal examinations are taken, the results of the classes are analyzed and discussed in the staff meeting. The principal gives necessary guidelines and suggestions for improving the academic performance.
