Activity Name	Student undertaking project work
Date	Academic year 2021-2022
Organized by	Department of Physics
Activity for	T.Y.B.Sc.(Physics) Student
Type of Activity	Learning Through Project Work
Objectives	<ul style="list-style-type: none"><li>• To develop laboratory work skills to work independently.</li><li>• To apply the knowledge, they have and improve the understanding of concepts by doing.</li><li>• To learn to review the research project articles.</li><li>• To gain the skill of design and fabrication concept.</li><li>• To gain the skill of data collection and Data analysis.</li><li>• To write the report of the project undertaken.</li><li>• To present the work students have performed.</li></ul>
Brief information about Activity	This activity is conducted for student in academic year 2021-22 as apart of curriculum, Prof. Dr. Datir A.M Prof. Chavan S.S., Prof. Deshmukh D.D. Prof. Zolekar R.R. and Prof. Sonawane R.S. guided the students in different steps of the project work.
Outcomes	Student should got the skill of doing laboratory work independently. They are learned to review the research/ project articles. They aquired the skill of data collection and Data analysis, writing report and present the work.
No. of students	12
No. of Teachers Involved	05
Report	Output and outcome of the learning through project work is obtained by evaluating the students at the end of each semester. Students demonstrated and presented their work in front of all the teachers and students which is helped to understand the outcome based on the objectives.

**Activity Report  
of  
Student Undertaking Project Work**

The project work at third year B.Sc. Physics students is a part of their curriculum. Objectives of this activity are to develop laboratory work skills to work independently, to apply the knowledge, they have and improve the understanding of concepts by doing, to learn to review the research/ project articles, to gain the skill of design and fabrication concept, to gain the skill of data collection and Data analysis, to write the report of the project undertaken and to present the work students have performed. In the academic year 2021-22 twelve students performed this activity and they constructed the project based on laboratory experimental kits, controller circuits using controllers like Arduini uno. Some theoretical projects like study of neutrino particles are also worked out.

Students had provided the laboratory facility in the college to perform their work. The teachers guided them time to time in their journey of doing the projects. At the end of each term work is presented in front of examiners and the objectives mentioned above are completed as a outcome of the activity.
